*Please note - this exam allows for partial credit to be given for questions which are answered partially correct. When the "number of items correct" per section is calculated for the purpose of demonstrating how well you performed in each individual section, a response which is partially correct will be reported in the section breakdown as "correct". This may result in a small discrepancy when comparing the "number of items" correct to the overall exam score. Please note that the overall exam score is accurate.

The following shows the percentage weighting of each section/category and your related score.

Section/Category	Number of Items	Your Score
1. Installation	12 out of 80	5 out of 12
2. ClearCase Administration - Configuration	12 out of 80	11 out of 12
